

"Prag"

The social drama **"Prag"** was successfully exhibited in several municipalities of the country, in Bërzhitë, Tirana, in Manza municipality, in Prezë, Tirana and in Kashar, Tirana.

"Prag" is a social drama, dedicated to the challenge that abused Albanian women had to face, in search of their identity, with the help of the Centre for Legal Civic Initiatives, starring lawyers and *pro bono* students of this Centre.

There were around 179 participants (members of the community, teachers, students, parents and representatives of institutions), who showed great interest towards the drama. They actively participated in discussions regarding domestic violence and measures that authorities need to take for its prevention.

The activities were organized by the **Centre for Legal Civic Initiatives**, in the framework of implementing the project ***"Increasing community awareness on domestic violence through dramatizing and performance"***, which is supported by the **Grants/Awards program of the Democracy Commission, US Embassy Tirana (project partner)**.

Below you can find photos from the activities.
